

ABDALLAH ZAGHLOUL

Frontend Developer & Team Lead (React) Damascus, Syria
(Remote) | +963932200022 | f2002.a.z@gmail.com [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Available for worldwide remote opportunities

PROFESSIONAL SUMMARY

Frontend Developer and Team Lead with 3+ years of experience building scalable, user-centric web applications using React, Redux, and Tailwind CSS. Proven track record in architecting clean frontend solutions and leading distributed teams in a remote environment. Expert in creating advanced UI interactions and implementing Agile task management workflows.

WORK EXPERIENCE

Frontend Team Lead (React)

PawsPalConnect | Oct 2025 – Present

- Lead and mentor a 3-member frontend team, overseeing technical decisions and ensuring high-quality delivery.
- Architected a production-grade pet-care platform utilizing React 19 and Redux Toolkit, resulting in a highly scalable and maintainable codebase.
- Developed complex features including appointment booking, vaccination tracking, and an e-commerce dashboard.
- Implemented a modern, responsive design system using Tailwind CSS v4, reducing CSS technical debt.
- Integrated real-time data visualization using Chart.js and Recharts for operational insights.
-

Frontend Web Developer (Freelance) | 2023 – Present

- Developed 5+ responsive web applications, focusing on high performance and component reusability.
- Built custom booking systems and API-driven dashboards for international clients.
- Optimized web performance and accessibility, achieving 90+ Lighthouse scores for key client projects.

Frontend Web Developer

Goma+ | Nov 2022 – Nov 2023

- Collaborated with cross-functional teams to build responsive interfaces using React and Tailwind CSS.
- Maintained existing codebases, reducing bug reports by resolving critical performance bottlenecks.

PROJECTS

PawsPalConnect – Pet Care & E-Commerce Platform

- Led the frontend strategy for a full-scale e-commerce and medical tracking platform.
- Implemented global state management and REST API integrations to handle complex user data.

Digital Studio – Interactive Creative Website

- Engineered an immersive user experience using GSAP for animations and Three.js for 3D elements.
- Prioritized smooth rendering and optimized performance for high-motion web environments.

Clinic Management System (Administrative & Doctor Dashboards)

- Designed Administrative and Doctor dashboards with a focus on workflow efficiency.
- Implemented multi-language support (i18n) to cater to international clinic operations.

HR Management System

- Built internal tools for employee profiles and real-time attendance visualization.

E-Commerce Web Application

- Developed a high-performance frontend with real-time state synchronization for cart management.

Medical Clinic System (Infertility Clinic)

- Engineered patient-facing interfaces with a focus on accessibility and mobile responsiveness.

SKILLS

- Frontend: React (18/19), Next.js, TypeScript (Core), JavaScript (ES6+), HTML5, CSS3, React Router.
- State Management: Redux, Redux Toolkit, Context API.
- UI & Motion: Tailwind CSS (v4), Material UI, GSAP, Framer Motion, DaisyUI.
- 3D & Interactive: Three.js.
- APIs & Tooling: REST APIs, Axios, Vite, Git, GitHub.
- Process: Agile/Scrum, Sprint Planning, Code Reviews, Jira (Project Management).
- Localization: i18n, i18next.

ACADEMIC HISTORY

BSc in Information Technology (AI Specialization)

Al-Sham Private University — March 2025
